The claims are objected to because the language of " the concrete slab into which .....said greater dimension xz plane tabs of said series.....are wholly embedded....." has no antecedent basis in the specification. Drawing figures 6-10 show the xz tabs wholly embedded in the concrete slab.

Claims 1-12 are objected to given the objection to the claims above. If the specification were amended as indicated above, claims 1-12 would be allowable over the prior art of record.

Applicant's arguments are moot given the indicated allowability.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
